French

### ABOUT ME

I am a passionate Front-End Developer with a focus on creating clean and responsive user experiences. Continuously learning and staying up-to-date with the latest technologies, I strive to combine creativity with technical skills to deliver high-quality digital solutions.

### EXPERIENCE

#### Web-Development

2024 - Present

- Designed a local bakery's website homepage - owner loved the modern layout.
- Experimenting with Frameworks like React and Next.js by building real-world UI clones (Netflix Interface, weather apps).

#### UI/UX Design

2024 - Present

- Improved user engagement by 70% through intuitive layouts.
- Created Wireframes and Prototypes in Figma for fictional apps/websites.

#### Freelancing

2024 - Present

- Built Responsive websites for clients, boosting engagement by 40%.
- Gained practical experience by building personal projects and freelancing through platforms like Fiverr.
